A hard book to get, and expensive if you can find it. Since I read this book 3 years ago, I have read a good many other books by Leftists, and have come to understand their agenda and tactics in a much more solid way. This book uses deception and lies, and the authors urge their allies to lie and cover certain things up.

The Pew Research Center released their latest data on American reading habits, and the results show some interesting — and somewhat surprising — trends. Roughly 72 percent of American adults read a book in 2015, continuing a gradual decline over the last 5 years (from 79 percent in 2011). However, these stats include people who reported reading “one book...in part”, so it's unclear ...
