The Madison River is a headwater tributary of the Missouri River, approximately 183 miles (295 km) long, in Wyoming and Montana. Its confluence with the Jefferson and Gallatin rivers near Three Forks, Montana forms the Missouri River. The Madison rises in Teton County in northwestern Wyoming at the confluence of the Firehole and Gibbon rivers, a location known as Madison Junction

Fish Utah -- Division of Wildlife Resources

Sam Goodspeed, Nevada City/Grass Valley Fire Department chief, said the steep topography and density of South Lake Tahoe's wooded areas are two of a few key differences between the Caldor Fire and the recent River and Bennett fires in Nevada County. "The steeper it is, the faster it will carry the fire," Goodspeed said.

Fishing licenses are effective from March 1 to the last day of February. The Minnesota DNR has received a limited number of reports from people who attempted to purchase fishing or hunting licenses online and came away from the transaction without a license, or having been charged in excess of the cost of a license.
